PROFESSIONAL EXPERIENCE

Group Planner – Pharma

September 2025 – Present

Rafed – SEHA Hospitals / UPP

Abu Dhabi, UAE

- Manage and consolidate pharmaceutical demand planning requirements for SEHA Hospitals, Clinics and UPP across Abu Dhabi.
- Analyze historical consumption, stock movement and demand trends to support accurate demand forecasting.
- Use **Blue Yonder** for pharmaceutical demand planning and forecasting, supporting demand visibility and inventory planning.
- Monitor inventory levels, stock coverage and consumption trends to identify potential shortages and excess stock.
- Track near-expiry and slow-moving products and coordinate actions to minimize expiry losses.
- Coordinate with hospital pharmacies, warehouses and clinical teams to align supply with actual medication needs.
- Support formulary standardization by monitoring product utilization and identifying standardization opportunities.
- Monitor medicine availability, escalate potential supply gaps and coordinate urgent and emergency requirements.
- Use **Power BI** dashboards and **Microsoft Excel** to analyze consumption, monitor inventory performance and prepare demand, consumption and inventory reports for management decisions.
- Identify demand variations, excess stock and opportunities to improve inventory utilization across facilities.

Regulatory & Inventory Lead

June 2022 – May 2025

Bin Ali Medical Supplies

Abu Dhabi, UAE

Inventory Management & Supply Chain

- Managed pharmaceutical and medical device inventory to maintain optimal stock levels and product availability.
- Forecasted inventory requirements from historical consumption, market demand and customer requirements.
- Monitored stock movements, expiry dates and near-expiry products; implemented FEFO/FIFO and conducted regular stock audits and reconciliations.
- Coordinated with suppliers and internal departments on replenishment and delivery schedules; monitored supplier lead times to prevent shortages.
- Ensured appropriate storage conditions, including cold-chain management and temperature monitoring.
- Prepared inventory reports and coordinated with logistics, finance and regulatory teams for smooth operations.

Regulatory Affairs & Commercial

- Managed regulatory compliance for non-registered medicines, orphan drugs, medical devices and CT contrast agents.
- Coordinated product and manufacturing-site registrations with UAE health authorities.
- Prepared and reviewed CTD/eCTD dossiers for new registrations, renewals and variations.
- Managed certificates, renewals, import permits and export documentation.
- Reviewed labelling, artwork, advertising and promotional materials for compliance.
- Coordinated with manufacturers on agency agreements; supported pharmacovigilance processes.
- Provided product information to hospitals and healthcare providers; participated in UAE government pharmaceutical and radiology tenders.
- Managed customer requirements through RAFED Oracle Fusion, Mediclinic, GHQ, Mubadala and Cleveland-related systems; maintained traceability via Tatmeen and Brand Sync.

Regulatory Pharmacist

July 2018 – June 2022

Bin Ali Medical Supplies

Abu Dhabi, UAE

- Coordinated pharmaceutical and medical device registration with MOHAP UAE, Dubai Municipality and SFDA.
- Managed registration of pharmaceuticals, contrast media, medical devices, consumables and cosmetics; evaluated and classified products per regulatory requirements.
- Coordinated import permits and shipment documentation; maintained registration records and timely certificate renewals.
- Liaised with health authorities, manufacturers and internal departments to facilitate product approvals.
- Reviewed labelling, packaging, artwork and promotional materials; monitored and renewed manufacturer agency agreements.
- Provided regulatory intelligence, supported business development and responded to authority queries.

Pharmacist

October 2011 – October 2017

Zenith Medicals

Kerala, India

- Managed pharmaceutical inventory, storage and stock organization; followed FIFO/FEFO procedures.
- Monitored availability, shortages, excess stock and expiry dates; maintained short-expiry and expired-product records.
- Ensured accurate dispensing in accordance with pharmacy standards and health authority storage requirements.
- Monitored pharmacy licences and regulatory compliance; coordinated with store and sales management on stock needs.
